PRODUCT OVERVIEW

The 200 Translator combines rollator and transport-chair functions in one product. The two modes support different equipment uses: walking with the rollator format and attendant-assisted movement with the transport-chair format.

FULL FEATURES

- Rollator and transport chair
- 300 lb weight capacity
- Shock absorber

PRODUCT DETAILS

Rollator and transport-chair configurations

The Translator combines rollator and transport-chair functions and includes a listed shock absorber. Ask ProLine to demonstrate the conversion and confirm the components required for each configuration.

Weight and fit details

The 23lb product-weight figure excludes the footrest. The model has a listed 300lb capacity, adjustable handle height and a defined seat size. Matte Grey, Blue and White are the named finishes; confirm the selected configuration and accessories together.
