PRODUCT DETAILS

Padded seat and drop arms

The padded seat is the defining seating feature of this model. Lowering the drop arms opens the sides of the seat. The listed seat-height range is 19 to 23.75 inches, which is a separate fit measurement from the usable seating area.

Check the placement and package

The seating area is listed at 21 inches wide by 17 inches deep, with overall dimensions of 23 inches wide by 20 inches deep. The product weighs 16lb and has a 300lb capacity. Confirm the complete configuration and supplied bucket components with ProLine.
